XT 1600B 63" Media Trimmer

The SID XT 1600B is a durable trimmer that enables you to cut foam board, paper, cardboard and other materials accurately and easily.

The cutter head features a dual direction blade that swivels up for convenient blade cleaning or replacement. The feed surface is anodized aluminum with alignment grooves. Two self-clamping rubber strips hold the media in place.

The SID XT1600B is a perfect solution for a variety of cutting needs and a must-have for any production house.
