M-1700A1 - Heat-assisted - 64"

Pneumatically Controlled Laminator

Simple to
operate

Complete with our exclusive "how to" online video training.

Pneumatic roller
lift

Fast and safe, far better than electric or hand crank systems.

Heated top roller

A must have to eliminate any silvering in you finished prints.

The M-1700A1 full-auto single-sided Hot and Cold laminator is designed for Sign and Graphics applications, capable of heavy-duty roll-to roll operation, with a maximum speed of up to 22 ft./min. The M-1700A1 has pneumatically adjustable pressure and height adjustment via an included air compressor which ensures easy operation and efficiency. Laminating and mounting widths are up to (64") and can fulfill a wide range of application requirements. The M1700-A1 is the ideal machine for all inkjet and printing materials.

Features:

- ✓ Single-sided Hot and Low-heat lamination
- ✓ Save time - get more done!
- ✓ Lamination width up to 64"
- ✓ Accurate pressure adjustment ensures better finishes
- ✓ Laminate without bubbles (silvering)
- ✓ Heated upper roller up to 140°F
- ✓ Lamination speed up to 22 ft/min
